Skills

Languages: Java, Python, C, C++

Tools/Platforms: MongoDB, Spring Boot, PostgreSQL, Git

Soft Skills: Problem-Solving, Collaboration

Projects

StackBill — Recurring Billing & Customer Management SaaS

Ongoing

- Building a multi-tenant SaaS platform (StackBill) for recurring billing and customer management, targeting small businesses like gyms and PG accommodations.
- Developing the backend with Java and Spring Boot, using PostgreSQL and a schema designed for multi-tenant data isolation.
- Building a mobile-responsive React frontend to consume the backend APIs.

Tech Stack: Java, Spring Boot, React, PostgreSQL

Link Shortener

Ongoing

- Planning a URL shortening service in Java that generates unique short codes and redirects to the original long URL.
- Designing backend logic for link creation, storage, and lookup, with collision handling for generated codes.
- Scoping basic usage tracking (e.g., click counts per link) as part of the initial build.

Tech Stack: Java

Rock Paper Scissors (Console-Based) | [GITHUB](#)

Jun'23

- Built a console-based Rock Paper Scissors game in Java where the user plays against a randomized bot.
- Implemented win/tie/lose logic using conditional checks, with input validation for empty or invalid entries.
- Added a replay loop letting the user play multiple rounds until choosing to stop.

Tech Stack: Java

Achievements

- Runner-Up — Zonal-Level Quiz Competition.
- Problem Solving: 100+ questions solved on LeetCode and 250+ across the platforms.
- Winner in multiple school-level sports competitions, including Volleyball and Basketball.

Certificates

AWS Cloud Practitioner Essentials

Ongoing

Infosys Springboard — Introduction to Artificial Intelligence
